

Let's get started!

1. Go to
weebly.com

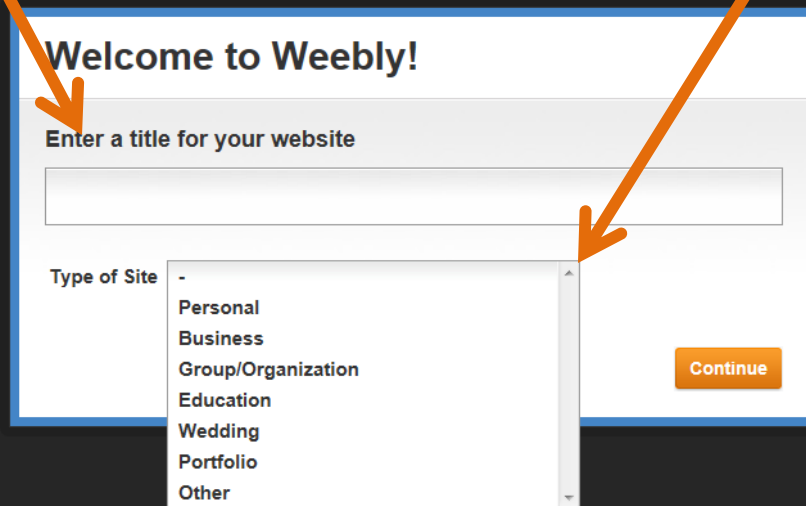

2. Fill in
your
information

The image shows the Weebly sign-up form. At the top is the Weebly logo with the tagline "Surprisingly easy". Below it is a "Sign up with Facebook" button. A horizontal line with "or" in the center separates this from the standard sign-up fields. These fields include "Full Name", "Email", and "Password". An orange arrow points from the text "Fill in your information" to the "Full Name" field. Below the fields is an orange "Sign up. It's free!" button. At the bottom, there are links for "English", "Versions", and "More".

Name your site & select the type

The image shows a screenshot of the Weebly website creation interface. It features a dark grey background with a white form box. The form has a blue border and contains the following elements:

- Welcome to Weebly!**: A heading at the top of the form.
- Enter a title for your website**: A text label above a single-line text input field.
- Type of Site**: A label to the left of a dropdown menu.
- Dropdown Menu**: A list of site types including: Personal, Business, Group/Organization, Education, Wedding, Portfolio, and Other.
- Continue**: An orange button located at the bottom right of the form.

Two orange arrows are overlaid on the image. One arrow originates from the word 'Name' in the main title and points to the text input field. The second arrow originates from the word 'select' in the main title and points to the 'Type of Site' dropdown menu.

Create your web address

- ❑ Use a subdomain of Weebly.com to maintain your website for FREE.
- ❑ You can also pay to own your own domain if that name is available.

Choose Your Website Domain

This is the address where people will find your website online. Reserve your domain now or skip this step and choose it later.

Button Text

You can add more pages or a blog

The screenshot shows the Weebly editor interface. At the top, the 'Pages' tab is selected in the navigation bar. Below it, the 'Manage Pages' panel is visible. On the left side of the panel, there are two buttons: 'Add Page' and 'Add Blog'. In the center, there is a 'Page Name' field with the text 'Home'. To the right of the 'Page Name' field are two buttons: 'Edit Page' and 'Copy Page'. Below the 'Page Name' field, there is a 'Page Layout' section with four different layout thumbnails. At the bottom of the panel, there are two checkboxes: 'Hide page in navigation menu' and 'Password protect this page'. Below these checkboxes is a link for 'Advanced Settings' and a 'Save Settings' button. Two callouts are present: one pointing to the 'Edit Page' button with the text 'Click Edit Page to design the new page.' and another pointing to the 'Page Layout' section with the text 'Choose the page layout for each new page.'

Edit Page **Copy Page**

Click Edit Page to design the new page.

Choose the page layout for each new page.

The new page can take users to another web page

The image shows a 'Manage Pages' interface with a sidebar and a main content area. The sidebar has buttons for 'Add Page' and 'Add Blog', a 'Home' button, and a 'New Page' button. The main content area has a 'Page Name' field with 'New Page' entered, and a 'Page Layout' section with four thumbnails. Below these are three checkboxes: 'Hide page in navigation menu', 'Password protect this page', and 'Link page to external site'. The 'Link page to external site' checkbox is checked, and an orange arrow points to it from a text box. Another orange arrow points from a text box to the 'http://' input field in the 'Link page to external site' section. The 'Save Settings' button is at the bottom.

Ready... Set... Go!!!

Now that you have some basic knowledge of how Weebly can help you set up your own web page, use the rest of our workshop time to continue to explore and design your creation. Have fun and continue even once you've gone home!

Thank You!
